

# AI Resume Analysis Report

**ATS Score:** 71%

**Predicted Role:** Machine Learning Engineer

**Detected Skills:** Python, Machine Learning, Excel, AWS, Spark, Hadoop, ETL, GCP, Databricks, Hive, Scala

**Missing Skills:** Deep Learning, Artificial Intelligence

**AI Resume Summary:**

4 years experience in software development using Big Data/Hadoop Ecosystems, Apache Spark, Python and ETL Technologies. 'Strong knowledge in Upgrading MapR, CDH and HOP Cluster'

## Interview Questions

- Explain list comprehension in Python.
- What is the difference between list and tuple?
- Explain decorators in Python.
- What are lambda functions?
- Explain exception handling in Python.
- What is overfitting?
- Explain bias vs variance.
- Difference between supervised and unsupervised learning?
- What is cross validation?
- Explain precision and recall.
- What are pivot tables?
- Explain VLOOKUP and XLOOKUP.
- What are macros?
- Explain conditional formatting.
- What are Excel formulas?
- What is EC2?
- Explain S3 storage.
- Difference between EC2 and Lambda?
- What is IAM?
- Explain VPC.
- What is Apache Spark?
- Difference between RDD and DataFrame?

- Explain Spark architecture.
- What is lazy evaluation?
- What is Spark SQL?
- Explain HDFS.
- What is MapReduce?
- Difference between Hadoop and Spark?
- Explain NameNode and DataNode.
- What is YARN?
- What is ETL process?
- Difference between ETL and ELT?
- Explain data transformation.
- What are ETL pipelines?
- How do you handle data validation?
- Explain your experience with GCP.
- What are key concepts in GCP?
- What projects have you built using GCP?
- What challenges did you face in GCP?
- What best practices do you follow in GCP?
- Explain your experience with Databricks.
- What are key concepts in Databricks?
- What projects have you built using Databricks?
- What challenges did you face in Databricks?
- What best practices do you follow in Databricks?
- Explain your experience with Hive.
- What are key concepts in Hive?
- What projects have you built using Hive?
- What challenges did you face in Hive?
- What best practices do you follow in Hive?
- Explain your experience with Scala.
- What are key concepts in Scala?
- What projects have you built using Scala?
- What challenges did you face in Scala?
- What best practices do you follow in Scala?
